SUMMARY

Aspiring Front-End Developer with strong knowledge in UI/UX design and full-stack development, specializing in the MERN stack. Proficient in creating engaging user interfaces and scalable applications. Eager to apply my skills in front-end development and problem-solving to contribute to innovative digital solutions.

SKILLS

Languages: C/C++, JavaScript, Python

Frontend/Backend: HTML, CSS, React.js, Bootstrap, GSAP, Node.js, Redux, AJAX, Express.js, MongoDB, MySQL

Tools/Testing: Git, GitHub, Visual Studio Code, npm, Postman, Figma, Netlify, MongoDB Atlas

PROJECTS

Web-Based Chat Application (ChatterBoxed)

11/2024 - 12/2024

A real-time chat application facilitating instant communication between users.

- Developed a real-time chat application named ChatterBoxed that allows users to send and receive messages instantly.
- Integrated WebSocket communication using Socket.IO for efficient real-time message delivery.
- Designed a user-friendly interface with responsive styling, ensuring usability across various devices.
- Visit the platform at <https://chatterbox.vercel.app>.

Movie Booking Website (CinemaCove)

05/2024 - 07/2024

A comprehensive movie booking platform that enhances user experience.

- Designed and developed a fully functional movie booking platform using the MERN stack, allowing users to book movie tickets online seamlessly.
- Implemented an intuitive seat selection system that dynamically updates seat availability based on real-time data from MongoDB.
- Utilized APIs with Express.js and Node.js for server-side logic, handling authentication, and managing booking records.
- Deployed the application using Netlify for the frontend and connected it to a cloud-based MongoDB database, enabling smooth and scalable operation.
- Visit the platform at <https://cinemacove.netlify.app/>.

EXPERIENCE

Intern

Jaipur, India

[Netparam Technology Pvt. Ltd.](#)

05/2024 - 07/2024

A technology company specializing in web and mobile application development.

- Gained hands-on experience in full-stack development using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Contributed to building a movie booking website, improving both frontend UI/UX and backend functionality.
- Implemented authentication, integrated payment gateways, and ensured real-time data processing for seamless booking transactions.
- Assisted in deploying the application via Netlify, optimized database queries, and performed testing for scalability and performance.

KEY ACHIEVEMENTS

5-star rating in C++ on HackerRank

Achieved a 5-star rating in C++ on HackerRank, demonstrating strong problem-solving skills and coding proficiency.

EDUCATION

Bachelor of Computer Application

Poornima University, [CGPA 8.0/10](#)

2022 - 2025
